

SHOP DRAWING REVIEW CHECK LIST OVERHEAD SECTIONAL DOORS (GARAGE DOORS)

Process numbers provided _____

Check off each item being included. All 3 items are required. Do not submit if not complete and legible.

- 1. A complete application with: **Shop drawings - overhead doors** indicated; a process number; and the total number of overhead doors being installed.
- 2. Two copies of a plan indicating the size and location of the openings to be equipped with the overhead doors. And indicating the mean roof height of the building.

or

If the shop drawings are required as part of a "master permit", include that master permit number in the application.

- 3. Two complete and legible copies of the Miami-Dade County Product Approval "Notice of Acceptance" for each overhead door used. The professional of record for the building shall review the "Notice of Acceptance"*

* In lieu of Approval for Miami-Dade County Building Code Compliance, "Notice of acceptance"* The product may provide "High Wind Velocity Zone Approval" from the Florida Building Commission

Provide two complete sets containing items 2 & 3 (if the permit set is used in lieu of a plan, two copies of item 3 are not required). Item 1 is to be included with the office set.
