1	Yes	S-16094 <i>Commission District 7 Central District Wastewater Treatment Plant New Materials Management Building and Storage Areas</i>	\$29,072,610.42 #9653421 CDWWTP Projects	10/18/2023 Review Item Approved SBE/CONS – 10.64%, SBE/ Goods – 5.05%, SBE/ Services – No Measure, CWP- N/A	Invitation to Bid to the lowest responsive, responsible bidder	4/11/2024	4/23/2024	N/A	TBD	COS 5/14/2024 Bid Due Date

Summary of Minimum Experience and Qualifications: Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials:

LICENSES REQUIRED: One of the following licenses required: General Contractor License, Subcontractors with Electricians License that could perform following work at minimum: low voltage electrical power systems, including lighting controls, transformers and switchgear, and/or any other category as applicable by Chapter 489 of the Florida Statutes of Chapter 10 of Miami-Dade County Code.

EXPERIENCE: In addition to the license requirements, Bidder shall submit proof that the firm has at least the minimum successful contract experience as required below. Such proof shall consist of projects, completed prior to the bid date, with the name and telephone numbers of the owners or representatives the Department can call and confirm the listed experience.

- The Bidder must maintain a construction team that have relevant experience for the work described in the Contract Documents, demonstrating project management experience having a total construction value (for each project) of greater than \$15 million. These projects shall have been performed within the past fifteen (15) years that includes LEED from the date of the Invitation to Bid. The Designated Construction Project Manager and the LEED Coordinator are key personnel, changes of which will be subject to approval by WASD.
- The Bidder must also have previous experience delivering projects, having completed a minimum of two (2) LEED projects demonstrating successful experience in obtaining LEED Silver Certification or higher, have a LEED AP credential and have a dedicated LEED coordinator.
- In addition to the above requirements, the Bidder must have a minimum of ten (10) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in the construction of building horizontal and vertical projects of similar scope and scale involving construction supported by references for five (5) projects completed within the past ten (10) years. Submitted reference Projects must demonstrate that the Bidder served as the Prime Contractor for the referenced Projects provided.
- In addition to submittal requirements stated elsewhere, to qualify for work on this Contract, the Bidder shall be experienced in, specifically for work in construction of similar buildings and open storage areas by taking into consideration that the site is located in an industrial facility and the contractor must adhere to all operational protocols.
- The Bidder must demonstrate that it has full-time personnel with the necessary experience to perform the Project’s Scope of Work. The Bidder shall provide a list of no less than three (3) references who can confirm that the bidder has successfully completed similar construction projects. Each reference shall include the following: contact’s name, telephone number, email address, and location in which modular building was intended for.

Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrates their ability to perform the requested services while meeting project schedules and budgets.

2	Yes	S-20059 <i>Commission District 8</i> South District Wastewater Treatment Plant FA Well Monitoring Phase 2	\$4,533,050.00 # 9655481 South District Wastewater Treatment Plant Projects	1/02/2024 Review Item Approved SBE/CONS – No Measure, SBE/ Goods & Services – No Measure, CWP- 10.00%	Invitation to Bid to the lowest responsive, responsible bidder	3/07/2024	3/20/2024	N/A	TBD	COS 4/09/2024 Bids Received
---	-----	---	--	---	--	-----------	-----------	-----	-----	------------------------------------

Summary of Minimum Experience and Qualifications Pursuant to the requirements of Section 10-3 of the Miami-Dade County Code, as well as the Solicitation and Contract Documents, at the time of bid, the Bidder must hold one of the following valid, current, and active credentials: Water Well Contractor

In addition to the license requirements, the bidder shall:

A. In order to aid the OWNER in making an award of the Contract, the Bidder shall submit, with his Offer, written evidence of its qualifications and ability to begin construction, to perform in a satisfactory manner, and to complete all the work covered by the Contract within the time specified in the Solicitation. Bidder shall submit proof of at least three similar projects within the past 5 years involving drilling of Floridan Aquifer wells and/or UIC permitted injection wells with 16 inch OD (outside diameter) casing cemented to a depth of at least 2,500 feet below land surface. Specialized testing activities including coring, inflatable packer testing, mechanical integrity testing, cement bond logging, temperature logging and water quality sampling must have been completed to demonstrate relevant experience. Failure to submit this information with the bid may be cause for the Bidder to be deemed non-responsive.

B. The bidder shall submit, among other things, specific name of the proposed superintendent, driller, logger, and detailed information identifying the above mentioned and all personnel to be utilized on this project and written evidence with respect to the following:

General Requirements

- That the bidder has a trained and competent organization, which has done work of similar character and value;
- That the bidder will have available personnel to do the work at the proper time or times, adequate equipment, and facilities, listing such equipment and facilities in such detail that they can be quickly and accurately checked;
- That the bidder has sufficient repair parts and supplies to maintain all equipment and facilities properly and with a minimum of delay;
- That the bidder has experience in drilling in the geologic formations of South Florida penetrated by THE OWNER's wells; including drilling to depths greater than 2,500 feet below land surface;
- That the bidder has experience in working with wells under the high artesian pressures that will be encountered in the wells in South Florida;

In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that would have met these minimum experience requirements with a prior firm, OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be

satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award. The qualifying proof shall be submitted in a separate sealed envelope with the bid.

The Bidder must demonstrate that the company has full-time personnel with the necessary experience to perform the project's scope of work. This experience shall include identifying successfully completed projects where personnel have performed the bulk of the work, and which best illustrates their ability to perform the requested services while meeting project schedules and budgets.

3	Yes	S-16302 <i>Commission District 10</i> Dredging of the Southwest Wellfield South Lagoon to Remove Calcium Carbonate Residual	\$6,739,338.40 O&M Activity #730217 Maint./Rep-Tank Cleaning Plant Equipment.	9/13/2023 Review Item Approved SBE/CONS - 5.09%, SBE/ Goods & Services – No Measure, CWP- N/A	Invitation to Bid to the lowest responsive, responsible bidder	10/12/2023	10/24/2023	N/A	TBD	COS 11/14/2023 Bids Received
---	-----	---	--	--	--	------------	------------	-----	-----	--

Summary of Minimum Experience and Qualifications:

LICENSES REQUIRED: At the time of bid and pursuant to the requirements of Section 10-3 of the Code of Miami-Dade County, Florida and these Solicitation and Contract Documents, the bidder must hold a valid, current, and active: Certificate of Competency from the County's Construction Trades Qualifying Board as a State General Contractor, General Engineering Contractor, Excavating and Grading Contractor, .or Certification, as a General Engineering or as an Underground Utility and Excavation Contractor, provided by the State of Florida Construction Industry Licensing Board, pursuant to the provisions of Florida Statutes Chapter 489.115.

EXPERIENCE: In addition to the above license requirements,

- The bidder must have a minimum of three (3) years of experience, under its current business name (which can include the experience of key supervisory employees that would man the project), in projects of similar scope and scale involving material excavation / grading/ loading / hauling, and maintenance of vehicular traffic, supported by references for one (1) project completed within the past ten (10) years. The submitted reference project must demonstrate that the bidder served as the prime contractor for the referenced projects provided.
- Demonstrate the experience requirement by:
- Providing a detailed description of at least one (1) project similar in detail to the project's scope of work described in these Solicitation Documents and in which the bidder's identified personnel is currently engaged or has completed within the past ten (10) years. List and describe the afore-mentioned project and state whether the work was performed for the County, other government clients, or private entities.
 - In the event a firm is established by executives, supervisors, and other senior field staff (key employees) that they have met these minimum experience requirements with a prior firm, the OWNER reserves the right to qualify the firm based on OWNER's sole determination and evaluation of the knowledge and prior experience of these key employees employed by the new firm. The experience of key senior personnel with other firms may be counted towards the experience requirement, if acceptable to the ENGINEER. Should such evidence not be satisfactory to the ENGINEER, whose decision shall be final, the bid will be considered non-responsive, and the second lowest bidder will be considered for award.

Summary of Minimum Experience and Qualifications:

A prime consultant and/or subconsultants (Team members) are highly preferred to be a full-service engineering firm with experience managing successful AMI implementations. The prime consultant shall provide a list of members of the proposed team, identifying the project/contract Manager, and the team leaders for key specialties. The prime consultant and/or team shall provide descriptions of at least three (3) successfully implemented and operating AMI projects. For each project, the consultant shall provide the name and contact information for a utility executive with the utility they served as the owner’s representative who can confirm their role. The descriptions shall include the client (i.e., municipality or agency), key project staff, the project name, a summary of the work performed, number of services / endpoints (denote if dual), the contract amount, the schedule (to include start and completion dates), the specific role of the prime consultant, the achievements (e.g., projects delivered on schedule, dollars saved, innovative designs implemented, new technology utilized) and a client reference and contact information. Additionally, each project will provide detailed information on the AMI technology used for the project.
